Note: Report changes/updates are in blue

Blanca Moisture to Reach Desert Southwest Tue/Wed

• Blanca is a major hurricane well off the coast of central Mexico and its remnant moisture is expected to have an impact on the desert southwest Tuesday and Wednesday of next week. The official forecast track takes Blanca into southern Baja California Sunday then it continues toward the northern Gulf of California Monday and Tuesday as it weakens. Confidence is currently low that there will be widespread impacts on southern Nevada and surrounding areas of northwest Arizona and southeast California as computer models generally indicate the bulk of the moisture will be carried across central and eastern Arizona and the Four Corners region. However, it deserves close watching as subtle shifts in the position of a low pressure system along the southern California coast could pull moisture our direction. It is too early to specify impacts for any particular location, but the primary potential threat would be heavy rain producing thunderstorms with any significant push of moisture into our region.

SPILL: 15-3178, Sewage Release, San Gabriel, Los Angeles County

- On 06/05/15 at 2046 hours the California State Warning Center (CSWC) received a report indicating that a blockage in a city main caused the release of an unknown amount of sewage. Crews are on-scene to remove the blockage at 343 S. Arroyo. Arroyo Road is closed to facilitate cleanup.
- The CSWC briefed the Cal OES Executive Duty Officer (EDO) and Southern Duty Officer (SDO) and made a full notification pursuant to our Hazardous Materials SOP.
- Cal OES SDO advises per the LA County Duty Officer:
 - The pipeline blockage issue was repaired as of 06/06/0034 hours.
 - · Facility being impacted is Vista Cove Assisted Living Facility- 901 W Santa Anita St., San Gabriel.
 - The SNF had approximately 80 residents. 34 patients were transported via ambulance to other facilities. 6 resident were transferred to a nearby sister facility in Arcadia, 14 were moved to a SNF next door and 14 were moved to second floor of the affected facility.
 - The incident command post was demobilized on 06/06/15 at 0015 hours.
 - 11 people were displaced from their first floor apartments; 9 were accommodated by their families, and 2 were provided commercial lodging. None of the 11 persons displaced had access and functional needs.
 - There was no request for state assistance or unmet needs.

Poppy, Vegetation Fire, Los Angeles County

Per Cal OES FDO on 06/06/15 at 0814 hours:

• 414 acres, 100% contained

FKU Lightening, Vegetation Fire, Fresno County

Per Cal OES FDO on 06/06/15 at 0814 hours:

- 8 Separate Fires
- 20 acres, 100% contained

Site, Vegetation Fire, Alameda County

Per Cal OES FDO on 06/06/15 at 0814 hours:

• 200 acres, 100% contained

Oasis, Vegetation Fire, Lake County

Per Cal OES FDO on 06/06/15 at 0814 hours:

• 25 acres, 100% Contained

Tar Ball Reports - Ventura, Los Angeles, and Orange Counties

- A separate Incident Command Post was established in the South Bay of Los Angeles and Orange Counties to respond to tar ball sightings in that area.
 - As of 06/04/15 at 1925 hours Los Angeles County OEM reported that Tar ball cleanup in City of Long Beach and South Bay area
 has been completed. The City of Long Beach reopened their beaches at 1130 hours on 06/05/15. Los Angeles County OEM will
 continue to monitor and report as needed. The laboratory analysis of sampling material to determine the origin and chemical
 makeup of the tar balls are still pending. There are no requests for State assistance and no unmet needs are being reported. The
 Cal OES Southern Duty Officer (SDO) will continue to monitor the incident.
- The ICP for the Refugio Incident is responding to sightings in Santa Barbara and Ventura County. Samples have been collected at all tar ball sites and will be fingerprinted to determine if there is any correlation to the Refugio Beach Incident.
 - Cleanup activity has been completed. Ventura County will continue to monitor incident. There have been no further requests for assistance and no unmet needs have been reported. The Cal OES Southern Duty Officer (SDO) will continue to monitor the incident.

Aids/LifeCycle Bike Race - Santa Barbara and Ventura Counties 06/05/15 and 06/06/2015

- Per the Cal OES Southern Region Duty Officer on 06/05/15 at 1700 hours: The AIDS/LifeCycle Bike Ride event moved through the Refugio Incident work area in Santa Barbara County by 1200 hours on Friday, 06/05/15.
- There were no reported incidents as the event riders moved through the area.

SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County

• On 05/19/15 at 1243 hours the California State Warning Center received a report from the Santa Barbara County Fire Department indicating that a ¼ mile sheen was observed off of Refugio State Beach, near Goleta, Santa Barbara County.

Proclamations

- Governor Brown Proclaims a State of Emergency in Santa Barbara County to Assist Oil Spill Response.
- http://gov.ca.gov/news.php?id=18967
- A Proclamation from Santa Barbara County has been received. The County is not requesting CDAA at this time.
- On 05/22/15 City of Goleta submitted a Proclamation of Local Emergency. The City is not requesting CDAA at this time.
- On 05/23/15 the University of California Santa Barbara submitted a Proclamation of Campus Emergency with no requests at this time.

Activations

On 05/27/15:

- The State Operations Center is activated at Level 1.
- The Southern Region Emergency Operations Center (REOC) is activated at Level 1.
- Santa Barbara EOC is activated at Level 1.
- The ICP, is located at 461 S. Fairview Ave., in Goleta, and has an Operational Period of 48 hours: 0700 to 0659 hours
- Ventura County OA EOC is activated at Level 1.

Missions

- 2015-SREOC-12905 05/30/15, Ventura County EOC requested four CMS boards, which were provided by Caltrans for seven days with the message: "BEACHES OPEN AVOID CONTACT WITH TAR/OIL VCEMERGENCY.COM" to be posted at the following locations:
 - · La Conchita at Santa Barbara Street North Bound
 - Seacliff Off-Ramp / Pacific Coast Highway (Rincon Parkway) South Bound
 - State Beaches Off-Ramp (101 NB North of Ventura) North Bound
 - Las Posas Road at HWY 1 South Bound

SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County

Deployments

- Unified Command
 - Federal on Scene Coordinator: US Coast Guard (USCG) & the Environmental Protection Agency (EPA).
 - State on Scene Coordinator: CA State Parks & CA Fish and Wildlife (CDFW).
 - Local on Scene Coordinator: Santa Barbara County Office of Emergency Management (OEM).
 - Tribal Coordination: Santa Ynez Chumash Tribe, Owl Clan Consultant representing the three Clans: Barbareno, Coastal and Southern Owl.
 - Responsible Party: Plains All American Pipeline LLC.
- Cal OES Deployments
 - Two ESC's from Cal OES Southern Region, Ports and Harbor Representative
 - Two ESC 's from Cal OES Southern Region, Agency Representative

Responding Agencies

Federal

• USCG, Pipeline and Hazardous Materials Safety Administration (PHMSA), EPA, US Fish and Wildlife, and NOAA.

State

• Cal OES, CA State Parks, Cal OSPR, CA Fish and Wildlife, Cal Volunteers, CA Department of Transportation, California Highway Patrol, University of California Santa Barbara and California Coastal Commission.

Local

• Santa Barbara County OEM, Ventura County Sheriff's OES, Santa Barbara County Fire Department, City of Santa Barbara, Santa Barbara County Sheriff, Gaviota Police Department, Santa Ynez Chumash Tribe, Owl Clan Consultant representing the three Clans: Barbareno, Coastal and Southern Owl.

SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County

- Response and Clean Up Efforts
- · Per Cal OES Southern Region Emergency Operations Center Situation Report:
- An investigation of the shoreline has revealed approximately 51.70 miles of shoreline impacted by the oil spill. Total shoreline area impacted by the oil spill is approximately 40.30 miles. Impacts to the shoreline have been identified as follows:
 - As of 06/05/15 at 1900 hours, offshore skimming operations resulted in 0 gallons of oily water mixture being collected, making the cumulative total of 14,267 gallons since the initial notification.
 - Four Shoreline Clean-up Assessment Teams (SCATs) have been surveying shoreline to assess extent of impact. Most areas are under 30% coverage.
 - As of 06/05/15 at 1900 hours, the following has been collected onshore:
 - 630 cubic yards of oiled sand
 - · 645 cubic yards of oiled vegetation
 - · 270 cubic yards of oiled debris/PPE
 - · 3840 cubic yards of oiled soil
 - · 120 yards of absorbent
 - A majority of the onshore oil impacts exist on beaches, cobble, riprap, and on rock faces between Arroyo Hondo (Santa Barbara County) and El Capitan Beach. Light oiling has been discovered as far as Point Mugu (Ventura County) to the east and 2 miles west of Arroyo Hondo to the west.
 - As of 06/05/15 at 1900 hours, approximately 79.61 miles of shoreline was assessed, of that:
 - · 3.97 miles was heavily impacted
 - 18.20 miles was moderately impacted
 - · 23.44 miles was lightly impacted
 - 6.40 miles was very lightly impacted
 - · 21.68 miles was reported with tar balls
 - 5.92 miles was identified with no impact.
 - To date, the total miles of impacted shoreline are, 73.69 miles.
 - Chumash Tribal Members continue to provide cultural and archeological guidance and oversight as needed. As of 6/05/15 at 1900 hours 44 cultural monitors and 9 archeologists are supporting the response.

Wildlife

- The Oiled Wildlife Care Network (OCWN) continues to conduct wildlife monitoring and recovery efforts.
- As of 06/05/15 at 1900 hours, CDFW reported recovery of 0 live bird (cumulative 58), 13 dead birds (cumulative 136) with a cumulative total of 194; and 1 live mammals (cumulative 43), 2 dead mammals (cumulative 67) with a cumulative total of 110.

SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County

Resources

- Per Cal OES Southern Region Emergency Operations Center Situation Report:
- As of 06/05/15 at 1900 hours, there are a total of 1411 personnel from all organizations currently responding to the incident. There are 124 personnel in the ICP, 1,287 in field operations.
- There are currently 17 vessels being utilized to perform boom, skimming operations, and decontamination offshore. Vessels not currently in use are being staged in the Ventura Harbor.
- There are 2 contracted aircraft (helos) deployed to this incident.

Public Information

- · Joint Info Center (JIC) has been established.
 - JIC WEBSITE: http://www.refugioresponse.com
 - Future media inquiries regarding Refugio State Beach oil spill should call: 805-770-3682.
- A Third-Party Claims telephone number has been established for businesses and others to report economic losses or costs due to the oil spill: 1-866-753-3619.
- The Community Relations Unit is drafting a proposal for a roundtable discussion with key stakeholders of the Santa Barbara business community to include the Chamber of Commerce.
- Congresswoman Capps visited the site on Friday, 06/05/15.
- The Santa Barbara County Supervisor's Chair and Mayor of Goleta conducted an overflight of the response area on Friday, 06/05/15.

Volunteers

- California Volunteers is leading the efforts to coordinate spontaneous volunteer activities related to the Refugio Incident. Volunteer activities are currently on hold. Cal Volunteers will continue to monitor the situation and identify any additional opportunities for volunteer beach cleanup events.
- The public can assist by visiting this website https://calspillwatch.dfg.ca.gov/Spill-Archive/Refugio-Incident/Volunteer or by reporting oiled wildlife by calling 877-UCD-OWCN (not a volunteer line).

<u>Cal EOC Incident – 2014 Drought</u>
 SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

• There are no significant Watches or Warnings in effect at this time

Active Weather Warnings, Watches and Advisories by County: http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

A low pressure system over California will bring chances for showers and storms across the interior through mid-next week. High temperatures across the interior will warm much above normal today into next week while near seasonal temperatures persist near the coast.

Medford Weather:

After several days of fairly cool weather, a big warm up is coming. A closed low pressure area is centered on Los Angeles this morning but covering much of the southwest. A deformation axis sits this will bring a threat of showers and a few thunderstorms. Areas north of the axis will be influenced by a high pressure ridge building into the Pacific Northwest. High pressure building inland will create an offshore flow today. Over the next several days, the California low will slowly fill and drift to the northeast. By Monday, only far southeast lake, southern Modoc and southeast Siskiyou counties have any potential for showers/thunderstorms. This is also the day where the ridge reaches its peak strength with the potential of 100 degrees in the rogue valley and the Lower Klamath River valley from Happy Camp downstream.

Reno Weather:

Low pressure will linger into Saturday with a chance for showers and thunderstorms each afternoon. Some drying is expected Sunday and Monday as the low pulls away. Another low may bring an increase in storms again for the middle of next week. Temperatures will see a slow warming trend into next week.

San Francisco Weather:

An upper low over southern California will move slowly eastward by this afternoon. This low may generate isolated showers and thunderstorms over the far southeast corner of the forecast area this afternoon as well as Saturday afternoon. Otherwise dry weather is expected during the next two days along with a gradual warming trend. More significant warming is forecast for Sunday and Monday as a ridge of high pressure builds over northern California.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Showers and thunderstorms over the mountains developing this afternoon and into adjacent portions of the valley. This pattern will persist into next week bringing clouds and mainly mountain showers and thunderstorms. Well above normal temperatures arrive Monday and Tuesday.

Hanford Weather:

Scattered afternoon and evening showers and thunderstorms are possible over the mountains today with a slight chance of thunderstorms on the east side of the San Joaquin valley and adjacent foothills. There is still a chance of mainly afternoon thunderstorms over the Sierra Sunday through Tuesday while dry weather prevails elsewhere. A day to day warming trend will occur through the period with high temperatures peaking around the century mark in the San Joaquin valley early next week.

Los Angeles Weather:

A weak upper low will bring widespread low clouds to the coasts and valleys this morning, along with a slight chance of thunderstorms this afternoon over the Ventura County mountains. For Sunday and Monday, the low will move east with warmer temperatures and less low clouds. For early next week, another low pressure will linger across the area, bringing cooler temperatures through mid-week. Additionally, the low will bring a slight chance of showers to the central coast Tuesday night and Wednesday.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

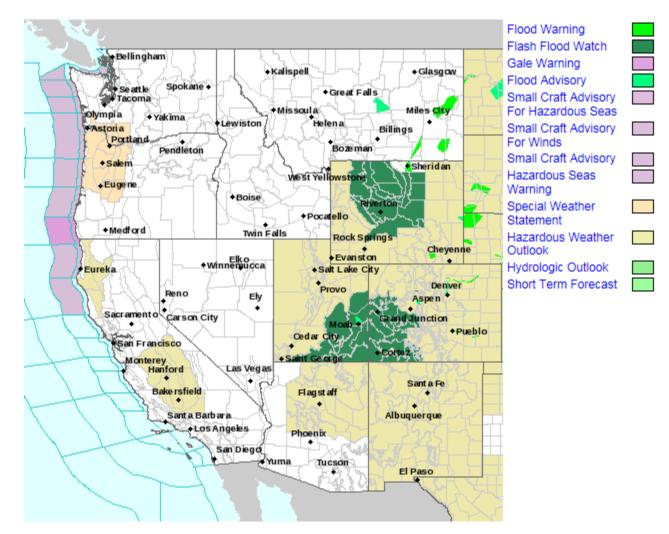

Through Monday, low pressure across the southwest states will weaken with an inland warming trend and gradually shallower marine layer. For the middle part of next week, a weak low pressure system off the California coast will draw moisture from the remnants of hurricane Blanca into the southwest states. While the bulk of the moisture is expected to go into Arizona, There could be sufficient moisture for a slight chance of showers and thunderstorms over the mountains and deserts of southern California around Wednesday. Slow cooling and slow deepening of the marine layer for late in the weak as a trough of low pressure moves inland through the southwest states.

Southeast California Weather:

The unusually strong low pressure system over southern California, that drew tropical moisture into central and eastern Arizona Friday, will move east into Nevada this afternoon. As a result, drier westerly winds will push the moisture field into eastern Arizona today, with a few afternoon showers and thunderstorms developing over the mountains east of phoenix through this evening. A drier air mass Sunday and Monday will produce mostly clear skies and warmer temperatures. However more tropical moisture from hurricane Blanca, located near the Baja California coast, will move into the region late Tuesday through Friday, bringing humid conditions and a chance of showers.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take
 place on alternating Wednesdays.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a weekly basis.

CAL OES 2014 DROUGHT

Cal EOC Incident - 2014 Drought

Local Emergency Proclamations:

A total of 57 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 25 Counties: El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 11 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Montague (Siskiyou County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), and City of West Sacramento (Yolo County), City of Willits (Mendocino County), City of Manteca (San Joaquin County), City of Porterville (Tulare County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

California Specialized Training Institute

CSTI Course Catalog

CSTI on the web

CSTI Course Schedule

The National Domestic Preparedness Consortium

The National Domestic Preparedness Consortium (NDPC) is charged with training the nation's first responders. The consortium is comprised of seven members, each of whom brings a different area of expertise in the field of emergency preparedness training. NDPC training comes at **NO COST** to local agencies and includes courses that address the most urgent emergency preparedness needs.

NDPC Training Partners

- Center for Domestic Preparedness in Anniston, AL
- Energetic Materials Research and Testing Center at New Mexico Tech
- National Center for Biomedical Research and Training at Louisiana State University
- Texas A&M Engineering Extension Service National Emergency Response and Rescue Training Center
- National Nuclear Security Administration/CTOS-Center for Radiological/Nuclear Training
- National Disaster Preparedness Training Center at the University of Hawaii
- National Center for Emergency Response for Surface Transportation in Pueblo, CO

Visit www.ndpc.us for more information on the courses offered by NDPC's Training Partners.
